## Company profile

### **MISSION**

Our mission is to utilize and manipulate every characteristic of light to produce truly innovative luminaires that may be used to create fascinating and exciting light settings.

### **VISION**

We aim to consolidate our position in the international show lighting business, and establish ourselves as a company that is appreciated for the distinctive features of its products. We firmly believe in the values of quality, commercial seriousness and customer service. These are values we intend to pursue with constancy and diligence. In this process, we acknowledge the strategic importance of people and their skills, as well as open, fair and constructive communication.

### **CLAY PAKY. IN PURSUIT OF PERFECT LIGHT SINCE 1976**

Clay Paky is part of the multinational OSRAM Group and is a world level reference brand in the sector of professional lighting systems.

The wide range of Clay Paky products includes arc-lamp moving lights, LED-based moving lights, LED-based static lights, arc-lamp static lights, followspots, outdoor enclosures, roxter-cases and accessories.

They are known throughout the world as they have changed the way of putting on spectacular shows and continue to be first as regards the extraordinary performances, the imagination and variety of the effects, the precise focus, purity of the light beam and movement precision. Over the course of its history the Company has been awarded a total of 50 prestige international prizes, recognitions of the innovation and quality of its products and manufacturing processes.

The professional sectors using Clay Paky light effects are: Touring and Live Events, Television, Theatre, Venues and Clubs, Trade Fair Exhibitions, Theme Parks, Conferences, Industrial Presentations, Showrooms and many other sectors in the show business and architainment lighting fields.

The company takes part in 25 important international trade fairs in the sector and is part of the principal Associations in its own manufacturing division.

AN OSRAM BUSINESS

### **HEADQUARTERS IN THE INDUSTRIAL HEART OF EUROPE**

Clay Paky's headquarters are located in central-northern Italy, in one of the nerve centres of the European industrial system, in the heart of a highly industrialized area, with access to all road and air links. All the company's business activities are concentrated in a recently built complex, with sophisticated industrial equipment. Here the products are designed, carefully manufactured, 100% tested and dispatched throughout the world. And here a team of technicians and salespeople work with passion to consolidate the present success and build an even more brilliant future.

### **THE PRIDE OF AN ITALIAN-MADE PRODUCT**

During its history, packed with inventions and successful products, Clay Paky has always had to face the onslaught of copy makers throughout the world. However, it has always reacted by bringing out endless innovations and, especially, by pursuing excellent quality through the exclusive use of Italian manufacturing to safeguard company traditions. Quality is not just a word in Clay Paky, but has a physically tangible meaning. It is guaranteed by meticulous control over components, processes and every stage of production until the final product becomes reality.

### **RESPECT FOR THE ENVIRONMENT (ECO-FRIENDLINESS)**

Clay Paky firmly believes in the future and respect for the environment. The company manufactures its products with eco-friendly materials, such as fibre glass, which is also one of the safest and most durable materials that may be used in the presence of heat sources. Clay Paky also strives to minimize energy and material waste at all stages of its production process. Furthermore it is Clay Paky's policy to design and develop products that maximize luminous efficacy to reduce consumption to a minimum.

### **CAREFUL CHOICE OF MATERIALS, STRICT FINAL QUALITY CONTROL**

Incoming materials are carefully monitored, selected and rejected if the strict technical specifications laid down by Clay Paky are not satisfied. Quality control on raw materials is often undervalued by other companies, but it is a true "added value" at Clay Paky. All products destined for the market are carefully inspected at Clay Paky. These tests are fundamental for the quality standard Clay Paky guarantees its customers, since performing strict tests on each single product is the only way to prove the final product works perfectly.

### MANAGEMENT SYSTEM CERTIFICATIONS

Clay Paky not only assures the quality of finished products and raw materials: the whole production process is certified by internationally recognized bodies. The certified operations include the design, production, sales and marketing of professional lighting products, health and safety. Clay Paky aims to improve the efficiency of its quality management system constantly and increase the satisfaction of all its customers.

- ISO 9001:2008 certified
- BS OHSAS 18001:2007 certified

### EXCELLENT PRODUCTS DISTRIBUTED ON FIVE CONTINENTS THROUGH A GLOBAL NETWORK

During its 40 years of international business, Clay Paky has put together a competent network of rental companies, dealers and distributors to provide its products for events, shows and installations. It is both "globally" and "locally" present, since it can count on the widespread support of Technical Assistance Centres and, in the most important countries, Resident Sales Managers ready to support every client need.

### A DIRECT RELATIONSHIP WITH RENTALS

Clay Paky has built a direct relationship with the world's most important rentals, ensuring that each new product is immediately introduced on the market, meaning immediate availability to Lighting Designers. Clay Paky offers Sales Support Engineering services to rental personnel, with trained technicians who have total command over projector features and thereby able to take advantage of their potentials.

### "SERVICE" AS AN ESSENTIAL ADDED VALUE

Clay Paky combines product quality with service quality. Customers may request in-depth technical analysis and advice specific to their projects completely free of charge, as well as timely after sales technical assistance. The Clay Paky support team organizes demonstrations and workshops both at the Clay Paky headquarters and at customers' offices, and takes part in shows and trade fairs.

### CONSTANT FEEDBACK FROM LIGHTING DESIGNERS

Whether directly or in collaboration with its distribution network, Clay Paky regularly visits Lighting Designers, Photography Directors, Architects and all lighting installation specifiers in general. The company's technical-sales personnel keeps these important professional figures up to date on all the latest innovations that Clay Paky offers them for increasingly effective shows and to express their creativity brilliantly.

### THE SHOWROOM: A CREATIVE WORKSHOP

Lighting Designers, Lighting Directors, architects, technicians and operators from the world over have free access to the Clay Paky showroom. It was designed to be not only a large and complete product exhibition but, first and foremost, a true "Studio" - an artistic workshop where specialists in the field can meet, experiment and push their creativity to the limit.

# Mythos

C61391

LDI BEST DEBUTING LIGHTING PRODUCT 2014 HONOURABLE MENTION

WINNER OF THE 2014 plasalondon AWARDS FOR INNOVATION

Mythos is a highly advanced form of hybrid light: first of all, it is an excellent 470 watt-lamp spotlight, which produces an outstanding large light beam, featuring a zoom that ranges from 4° to 50° (1:12 ratio).

Light beam is sharp, with perfectly defined edges, from the first millimetres after the front lens right along its entire length. The zoom is optimized for focusing, which is separate from that of the fixed and rotating gobos. Its movements are smooth, fast and very quiet. Mythos also features a completely redesigned indexed visual effect disc, which may be superimposed on all the gobos, both in and out of focus.

But Mythos is also an extraordinary beam light, allowing you to switch to a minimum fixed beam angle of just 0.5°. A large, very dense, 170 mm-diameter light beam leaves the Mythos's front lens and remains parallel for its entire length even at great distances.

Mythos is a very versatile tool, which is useful in any situation and therefore an excellent investment.

- 470W, 7800K discharge lamp
- Large 160mm diameter front lens
- Electronic focusing for a perfectly sharp light beam along its entire length
- 4°- 50° electronic zoom (Spotlight mode)
- 2.5° aperture and "pipe" effect (Beam mode)
- CMY color mixing with gradually fading color wheels + 5 special colors on each wheel
- 2 CTO filters (3200 K and 2500 K) + 1 CTB filter
- Wheel with 6 HQ dichroic rotating gobos
- Wheel with 18+1 fixed metal gobos (including 6 beam reducers)
- Advanced visual effect disc (animation disc)
- 2 indexable rotating prisms (8-facet and linear 4-facet prism)
- Frost filter for soft-edge projection
- High precision dimmer and stop-strobe effect
- Rapid and extensive pan and tilt movements
- High performance electronics and firmware
- Patented Italian Design

## Standard accessories

MSD PLATINUM 20R (7,800 K) PHILIPS LAMP - code LAM00F  
OMEGA for fixing clamps - code 183102/805

## Optional accessories

CLAMPS hooks for truss Ø 48-51mm, max 300 Kg - code C21070  
SAFETY CABLE Ø 4mm, length 680mm - code 105041/003  
FOAM SHELL - code F21262  
ROXTER-CASE (including 2 foam shells + wheels) for 2 Super-sharpy/Mythos - code F21263

### Details

#### POWER SUPPLIES

115/230V 50/60 Hz  
Automatic power supply switching

#### INPUT POWER

700VA at 230V 50Hz

#### LIGHT SOURCE

470W discharge lamp  
- Color Temperature: 7850 K  
- Life: 1500hrs  
- Luminous flux: 23000 lm  
- Socket: Faston TM 250

#### OPTICS

160mm diam. front lens  
Electronic focusing for a perfectly sharp light beam along its entire length  
Zoom ranging from 4° to 31° for fixed gobos sharp focusing  
Zoom range from 6.5° to 50° for rotating gobos sharp focusing  
BEAM mode with 2.5° aperture and "pipe" effect

#### COLOR SYSTEM

CMY color system based on 3 gradually fading color wheels  
14 color filters on three wheels  
2 CTO filters (3,200K and 2,500K) + CTB filter

#### EFFECTS SECTION

2 gobo wheels:  
- wheel with 6 HQ dichroic, indexable and interchangeable rotating gobos (Ø 25.9 mm)  
- interchangeable and variable rotating wheel with 18+1 fixed metal gobos (including 6 beam reducers)  
Selectable Gobo-Shake function  
Advanced Visual Effect Disc (Animation disc)  
2 indexable and interchangeable rotating prisms  
Frost unit to soften the beam edge  
Soft filter  
High precision 0-100% dimmer  
Mechanical shutter and adjustable speed strobe effect

#### CONTROL AND PROGRAMMING

30/34 DMX 512 control channels  
DMX protocol signal: USITT DMX 512  
Display: Graphic LCD backlight b/w Display  
Pan/Tilt Resolution: 16 bit  
Gobo Indexing Resolution: 16 bit  
Focus Resolution: 16 bit  
Dimmer Resolution: 16 bit  
Movement control: vectorial  
DMX signal connection: 3 and 5 pole XLR input and output  
Software upload through DMX input

### Fixed gobo wheel

### Visual effect disc

#### BODY

Aluminium structure with die-cast plastic cover  
Two side handles for transportation  
Device locking PAN and TILT mechanisms for transportation and maintenance.

#### MOVING BODY

Angle:  
- PAN = 540° - TILT = 244°  
Resolution:  
- PAN = 2.11° - PAN FINE = 0.008°  
- TILT = 0.96° - TILT FINE = 0.004°  
Automatic repositioning of PAN and TILT after accidental movement not controlled by control unit.

#### ELECTRONICS

Long life self-charging buffer battery  
Pre-set macro  
Function reset from control unit  
"ENERGY SAVING" function: with the stop or total dimmer effect on, or with all the CMY filters full (black), consumption cut by 50%  
ON/OFF lamp control from the lighting desk  
Function reset from the lighting desk  
"AUTOTEST" function from menu  
Art-Net / RDM  
Electronic monitoring with status error  
Cooling system monitoring  
DMX level monitoring on all channels  
Internal data transmission diagnostics  
Firmware Upgrade with no power  
Firmware upload from another fixture

#### SAFETY DEVICES

Bipolar circuit breaker with thermal protection  
Automatic break in power supply in case of overheating  
Forced ventilation with axial fans

#### WORKING POSITION

Working in any position  
Hanging system: with fast-lock omega clamps (1/4 turn) on the base

# Supersharpy

C61390

After the Sharpy's extraordinary worldwide success, Clay Paky is now launching Supersharpy, an ACL beam type moving head featuring a 470 watt, 7,800 K lamp. If you have been amazed at how bright the Sharpy is, Supersharpy will leave you literally stunned. Its light beam is nothing short of three times brighter, with a far bigger difference than you would expect by simply comparing the rated wattage of the two lamps (470 vs 190). Thanks to this incredible output, Supersharpy's light reaches never-seen-before mid-air distances, making Supersharpy the first low-wattage beam light that can really challenge a searchlight. However Clay Paky was not settled for merely producing a "more powerful beam light". Supersharpy also provides the utmost in terms of light quality and number of effects.

- 470W - 7,800 K discharge lamp
- Three times brighter than the Sharpy
- Large 170mm diameter front lens
- Adjustable beam angle from 0 to 4°
- Extremely Advanced optics: perfectly focused images projections even tens of metres away
- CMY mixing system based on three gradually fading color wheels + 5 special colors on each wheel
- 2 CTO filters (3,200 K and 2,500 K) to create even the "warmest" shades. 1 CTB filter
- Wheel with 7 HQ dichroic rotating gobos
- Wheel with 18+1 fixed metal gobos (including 6 beam reducers)
- 8-facet rotating prism
- Frost unit to simulate a wash projection
- High Precision dimmer and stop-strobe effect
- Rapid and extensive pan and tilt movements
- High performance electronics and firmware
- Patented Italian Design

# Alpha Profile 1500

C61330

C61331 (ST Version)

photometrics and  
other specifications  
[www.claypaky.it](http://www.claypaky.it)

The Alpha Profile 1500 is a cutting-edge professional beam shaper that combines the high output power of a 1500 W lamp with an exclusive framing system (patented) capable of any shape. It features an astonishing 1:9 ratio zoom, with a breathtaking speed, that makes it suitable to both short and long distance applications. It is extremely bright, very silent and has advanced electronics and software. It comes with a comprehensive range of graphic effects, the innovative Stay-Sharp-Zoom function allowing automatic focusing and the smart Zoom-Tracking-Diffuser for a linear beam softening. The Alpha Profile 1500 is a valuable resource for designers working in demanding lighting environments.

## ALPHA PROFILE 1500 - "ST" Version

The ST Version is available and ideal for Theatre, including a new elliptical reflector and a new special lens coating, resulting in a 6,000K Color Temperature, very close to the black body curve.

- 1500 W discharge lamp
- Optical unit with extremely high luminous efficiency
- Power may be set to 1500 or 1200 W
- 7°- 60° electronic zoom
- Stay-Sharp-Zoom function for automatic focusing
- CMY color system + color wheel + linear CTO
- Patented framing system, adjustable over 90°
- Geometric beam shaping of various proportions and sizes
- "Total curtain effect" with single blade
- Graphic system: 14 gobos (6 rotating + 8 fixed) + rotating prism
- Zoom-Tracking-Diffuser (frost filter synchronized with zoom plus flood filter)
- Special 16-blade mechanical iris
- 0-100% hybrid dimmer (electronic + mechanical)
- Three-phase pan/tilt motor for perfectly silent operation
- High performance electronics and firmware
- Modular construction for easy maintenance

## Standard accessories

HTI 1500W/60/P50 LOK-IT (6.000 K) OSRAM LAMP - code L10102

# Alpha Spot HPE 1500

C61325

C61326 (ST Version)

photometrics and  
other specifications  
[www.claypaky.it](http://www.claypaky.it)

This 1500 W moving head is the most impressive graphic effects spotlight available, with an incredible array of color and imagery devices, including 20 gobos on 3 wheels, animation disc, rotating prism and the exclusive Automated-Star-Gobo (patent pending). All devices are fully combinable with limitless rotation and morphing possibilities. The zoom has an extreme aperture range from 7° to 57° (1.8 ratio) with an amazing 120 bpm speed. An auto-focusing function combined with the Dyna-Cue-Creator make programming and operation easy and creative. A special high definition iris, the advanced Zoom-Tracking-Diffuser and silent operation position Alpha HPE 1500 at the edge of show-lighting technology.

## ALPHA SPOT HPE 1500 - "ST" Version

The ST Version is available and ideal for Theatre, including a new elliptical reflector and a new special lens coating, resulting in a 6,000K Color Temperature, very close to the black body curve.

- 1500 W discharge lamp
- Optical unit with extremely high luminous efficiency
- Power may be set to 1500 or 1200 W
- 7°- 57° electronic zoom
- Stay-Sharp-Zoom function for automatic focusing
- Dyna-Cue-Creator on a special channel for fast artistic programming
- CMY color system + color wheel + linear CTO
- A rich range of effects designed for professional use
- Dichroic glass patterns: 20 gobos (12 rotating on 2 gobo wheels + 8 fixed)
- Exclusive adjustable animated star gobo on a dedicated channel (patented)
- Animation disc
- 5-facet rotating prism
- Zoom-Tracking-Diffuser (frost filter synchronized with zoom plus flood filter)
- Special 16-blade mechanical iris
- 0-100% hybrid dimmer (electronic + mechanical)
- Three-phase pan/tilt motor for perfectly silent operation
- High performance electronics and firmware
- Modular construction for easy maintenance

Hanging system: with fast-lock omega clamps (1/4 turn) on the base

# Alpha Beam 1500

C61310

The Alpha Beam 1500 is the most powerful luminaire belonging to the special category of fully automated ACL fixtures, generating a solid, super-concentrated parallel beam for very long-throw projections, that innumerable built-in devices shape in size and animate with colors and movement for fantastic mid-air effects. Featuring the new Fast-Fit 1500 W lamp, Alpha Beam 1500 can also become as a spotlight for long distance focused projections and perform as a good narrow-angle washlight.

- 1500 W discharge lamp
- Optical unit with extremely high luminous efficiency (185,000 lux at 10 m)
- Narrow and parallel 4° beam
- CMY color system + color wheel (including CTO filter)
- 14 (6 rotating + 8 fixed) gobos + 3 rotating prisms, to change the graphic effects and beam angle
- Electronic focusing, for projecting sharp images at any distance
- Linear frost effect (light/medium/heavy) on dedicated channels
- High speed mechanical iris
- 0-100% hybrid dimmer (electronic + mechanical)
- Extraordinarily wide, fast and linear pan and tilt movements
- Eco-friendly: may be used instead of very much larger and more expensive searchlights
- Large savings in handling, installation, storage and consumption costs
- New generation, high performance electronics
- Modular construction for easy maintenance

## Standard accessories

HTI 1500W/60/P50 LOK-IT (6.000 K) OSRAM LAMP - code L10102

# Alpha Wash 1500

C61320

This fixture is the top washlight in the Alpha range, featuring a 1500 W lamp, enhanced optics and a comprehensive color generation system. The beam is fully sizeable thanks to the extra-wide 11° - 74° zoom range, clean from centre to edge. Colors are generated through combinable CMY system, 2 color wheels, with pure dichroic filters, and the special "Golden CTO", allowing smooth adjustment from 2500K to 6000K.

- 1500 W discharge lamp
- Optical unit with extremely high luminous efficiency
- Power may be set to 1500 or 1200 W
- 11°- 74° electronic zoom
- CMY color system + 2 color wheels (6+6) + linear "Golden CTO"
- Indexable and rotating ovalizing filter
- Rotating "diamond effect" filter
- Frost filter
- 0-100% hybrid dimmer (electronic + mechanical)
- Three-phase pan/tilt motor for perfectly silent operation
- High performance electronics and firmware
- Modular construction for easy maintenance

# Alpha Profile 800 ST

C61385

photometrics and  
other specifications  
[www.claypaky.it](http://www.claypaky.it)

external finish color on request:

chrome-plated

white

The Alpha Profile 800 ST is the most modern moving beam shaper in existence today for use in the most demanding lighting sectors. Clay Paky has used highly sophisticated micromechanics to obtain a compact, light, silent unit with an extremely bright light and a zoom capable of producing an extraordinarily sharp, perfectly uniform beam. Lighting designers will find all the tools they need to enhance their creativity in the Alpha Profile 800 ST: a miniaturized four-blade framing system, capable of creating any geometric shape; a zoom that starts from the extremely narrow angle of 7.6° and reaches up to 55°; an exclusive autofocus system and the Dyna-Cue-Creator function, which are two useful features created by Clay Paky to make their lights easy to program and enrich them with original dynamic visual effects.

The 6000 K light beam and top-of-the-class operating silence (42 dBA) complete the characteristics of this light. It is perfect for use in Theatres, Television studios, on exhibition stands and in the most demanding live situations.

- 800W discharge lamp (7750 K, 750 h)
- Light beam color temperature: 6000 K
- Optical unit with extremely high luminous efficiency
- Incredibly small (head length = 455 mm)
- 11 - 55° electronic linear zoom. Additional angle: 7,6°
- Stay-Sharp-Zoom function for automatic focusing (patented)
- CMY color system + color wheel + linear CTO
- Patented framing system, adjustable over 90°
- Shapes and triangles of various proportions and sizes
- "Total curtain effect" with single blade
- Graphic system: 7 rotating gobos + 9-facet prism
- Special 16-blade mechanical iris
- Dyna-Cue-Creator on a special channel for quickly programming dynamic visual effects
- Frost filter
- Hybrid dimmer (100-50% electronic; 50% to zero mechanical)
- Three-phase pan/tilt motor for perfectly silent operation
- High performance electronics and firmware
- Modular construction for easy maintenance
- Extremely silent: 42 dBA

C61381 (ST Version)

photometrics and  
other specifications  
[www.claypaky.it](http://www.claypaky.it)

external finish color on request:

chrome-plated

white

The Alpha Spot QWO 800 (Quiet-Wide-Optics) uses the latest high performance 800W lamp, that produces an intense sparkling light, brighter even than older 1200W lamps. It is equipped with optical features that place this luminaire at the very top of its class, including a very wide zoom range from 7.6° to 55°, a uniform beam distribution at all zoom angles, a unique Stay-Sharp-Zoom feature that locks images in focus while zooming and the Dyna-Cue-Creator. Small and lightweight construction, impressive zoom range, excellent brightness, uniform beam, silent operation (42 dBA), low consumption – these are just some of the features that make the Alpha Spot QWO 800 an excellent tool for TV, theatre, corporate events, and countless other demanding lighting applications.

## Alpha Spot QWO 800 – “ST” Version

The ST version is available and ideal for STUDIO use (television and theatre), given it has an optics system that has undergone a special processing that lowers the color temperature of the output beam of light.

- 800W discharge lamp
- Optical unit with extremely high luminous efficiency
- Zoom: linear from 11° to 55° with additional narrow 7.6° aperture
- Stay-Sharp-Zoom function for automatic focusing (patented)
- Dyna-Cue-Creator on a special channel for quickly programming dynamic visual effects
- CMY color-mixing system
- Fixed color wheel with 8 colors
- Linear CTO (7,800 – 2,500K)
- 15 glass gobos (7 rotating + 8 fixed)
- 6-facet rotating prism
- Animation disc
- Variable Frost system
- Special 16-blade iris
- Hybrid dimmer (100-50% electronic; 50% to zero mechanical)
- Extremely silent operation (42 dBA)
- Extremely new design high performance electronics
- Eco-friendly: may be used instead of very much larger and more expensive spotlights
- Modular construction for easy maintenance

# Alpha Profile 700

C61365  
C61366 (ST Version)

photometrics and  
other specifications  
[www.claypaky.it](http://www.claypaky.it)

external finish color on request:

chrome-plated

white

The Alpha Profile 700 is the only 700 watt automated spotlight with framing system available on the market. Focal distances have been optimised for an effective framing of well focused patterns, with triangles and quadrangles of all shapes and sizes. Programming is enormously simplified, thanks to the color-macros and the Dyna-Cue-Creator function; the extraordinary (patent-pending) Stay-Sharp-Zoom function keeps images in focus while the zoom runs from one beam angle to another, even when projected effects are located on different focal planes.

Alpha Profile 700 - "ST" Version:

The ST Version is available and ideal for STUDIO use (Television and Theatre), given it has an optics and a special lamp that produce a beam light with a color temperature of roughly 6,000 K.

- 700W discharge lamp
- Optical unit with extremely high luminous efficiency (28,500 lux at 5 m).
- Incredibly small (head length = 455 mm)
- 11 - 55° electronic linear zoom. Additional angle: 7,6°
- Stay-Sharp-Zoom function for automatic focusing (patented)
- CMY color system + color wheel + linear CTO
- Patented framing system, adjustable over 90°
- Shapes and triangles of various proportions and sizes
- "Total curtain effect" with single blade
- Graphic system: 7 rotating gobos + 9-facet prism
- Special 16-blade mechanical iris
- Dyna-Cue-Creator on a special channel for quickly programming dynamic visual effects
- Frost filter
- Hybrid dimmer (100-50% electronic; 50% to zero mechanical)
- Three-phase pan/tilt motor for perfectly silent operation
- High performance electronics and firmware
- Modular construction for easy maintenance
- Extremely silent: 43 dBA (41 dBA in "half power" mode)

#### ELECTRONICS

Long life self-charging buffer battery.  
Pre-set macros.  
"ENERGY SAVING" function: with the stop or total dimmer effect on, or with all the CMY filters full (black), consumption cut by 50%  
ON/OFF lamp control from the lighting desk  
Function reset from the lighting desk  
"AUTOTEST" function from menu  
Art-Net / RDM  
Electronic monitoring with status error  
Cooling system monitoring  
DMX level monitoring on all channels  
Internal data transmission diagnostics  
Firmware Upgrade with no power  
Firmware upload from another fixture

#### SAFETY DEVICES

Bipolar circuit breaker with thermal protection  
Automatic break in power supply in case of overheating  
Forced ventilation with axial fans

#### WORKING POSITION

Working in any position  
Hanging system: with fast-lock omega clamps (1/4 turn) on the base

# Alpha Spot HPE 700

C61355

This luminaire is the smallest 700 W spotlight available, weighting 22 kilos only. The 700 W lamp provides a level of brightness equal, if not greater, than that seen with higher wattages. The Alpha Spot HPE 700 houses an array of optical and graphic devices that have nothing to envy from larger and more expensive fixtures, including a 15°-35° zoom with electronic focus and an hybrid electronic/mechanical dimmer. Alpha 700 HPE features a staggering speed with instant acceleration. Silent, eco-friendly, easy to handle and install, this fixture, that takes no space on truck and on the rig, will soon be your favourite.

- 700W discharge lamp
- Optical unit with extremely high luminous efficiency (35,000 lux at 5 m)
- Incredibly small (head length = 415 mm) and lightweight (22 kg)
- Large savings in handling, installation, storage and consumption costs
- Extraordinarily wide, fast and linear pan and tilt movements
- 14,7°- 35° electronic linear zoom and uniform field lens on a dedicated channel
- CMY color system + color wheel + CTO conversion filters
- Graphic system: 15 gobos + 1 rotating prism
- Frost effect with adjustable projection angle
- 0-100% hybrid dimmer (electronic + mechanical)
- Silent operation ("Silent Version" system supplied as standard)
- Extremely new design high performance electronics
- Eco-friendly: may be used instead of very much larger and more expensive spotlights
- Modular construction for easy maintenance

## Standard accessories

MSR GOLD 700/2 MINI FAST-FIT (7,200 K) PHILIPS LAMP - code L10098  
OMEGA for fixing clamps - code 183102/805

CLAMPS hooks for truss Ø 48-51mm, max 300 Kg - code C21070  
SAFETY CABLE Ø 4mm, length 680mm - code 105041/003  
FOAM SHELL - code F21172  
ROXTER-CASE (including 2 foam shells + wheels) for 2 Alpha 700/300 - code F21205

**Rotating gobos** Ø 25,7 mm - image: Ø 23 mm

**Fixed gobos** Ø 31,5 mm - image: Ø 23 mm

**Color wheel**

22.9 Kg (50.5 lbs)

**Details**

**POWER SUPPLIES**

100 - 240V 50/60Hz  
Automatic power supply switching

**INPUT POWER**

1050VA at 230V 50Hz (PFC electronic ballast)

**LIGHT SOURCE**

700 W discharge lamp:  
- Socket: PGjX28  
- Color Temperature: 7,200 K  
- Luminous flux: 50,000 lm  
- Average Life: 750 h

**OPTICS**

Elliptic reflector with high luminous efficiency  
Electronic linear zoom 14,7°- 35° (47° with frost)  
Electronic Focusing  
"Uniform field lens" on dedicated channel, that allows the passage, at will, from "hot spot" to uniform field

**COLOR SYSTEM**

CMY Color Mixing  
Color Wheel with 8 pure and selected color filters + open CTO 2500 K and CTO 3200 K filters (on color wheel)

**EFFECTS SECTION**

1 Rotating Gobo Wheel, with 7 bidirectional and indexable gobos (Ø 25,7mm)  
1 wheel with 8 fixed gobos (Ø 31,5mm), at variable rotation  
Selectable "Gobo shake" function  
"Morphing" effect  
Fixed and rotating gobos are easily interchangeable  
1 rotating prism (5)  
Frost with adjustable projection angle  
High-Speed Mechanical Iris  
Hybrid dimmer (100-50% electronic; 50% to zero mechanical)  
Stop/strobe effect

**CONTROL AND PROGRAMMING**

Max 29 DMX 512 control channels  
DMX protocol signal: USITT DMX 512  
Display: Graphic LCD backlight b/w Display  
Pan/Tilt Resolution: 16 bit  
Gobo Indexing Resolution: 16 bit  
Dimmer Resolution: 16 bit  
Movement control: vectorial  
DMX signal connection: 3 and 5 pole XLR input and output  
Software upload through DMX input

**BODY**

Aluminium structure with black die-cast plastic cover  
Chrome-plated version available on request  
Two side handles for transportation  
PAN and TILT lock for transport and maintenance

**MOVING BODY**

Angle: PAN = 540°, TILT = 250°  
Maximum speeds:  
PAN = 3.77 sec (540°) / 3.20 sec (Fast)  
TILT = 1.89 sec (250°) / 1.75 sec (Fast)  
Resolution:  
PAN = 2.11°, PAN FINE = 0.008°  
TILT = 0.98°, TILT FINE = 0.004°

**ELECTRONICS**

Long life self-charging buffer battery.  
Pre-set macros.  
"ENERGY SAVING" function: with the stop or total dimmer effect on, or with all the CMY filters full (black), consumption cut by 50%.  
ON/OFF lamp control from the lighting desk.  
Function reset from the lighting desk.  
"AUTOTEST" function from menu  
Art-Net / RDM  
Electronic monitoring with status error  
Cooling system monitoring  
DMX level monitoring on all channels  
Internal data transmission diagnostics  
Firmware Upgrade with no power  
Firmware upload from another fixture

**SAFETY DEVICES**

Bipolar circuit breaker with thermal protection.  
Automatic break in power supply in case of overheating.  
Forced ventilation with axial fans.

**WORKING POSITION**

Hanging system: with fast-lock omega clamps (1/4 turn) on the base

# Alpha Beam 700

C61360

photometrics and  
other specifications  
[www.claypaky.it](http://www.claypaky.it)

external finish color on request:

chrome-plated

white

The Alpha Beam 700 is a special and unique luminaire, conceived as an automated ACL to create parallel light beams, visible even in the brightest scenes. Its small, lightweight, quick-moving body contains the most advanced technology for generating a bright beam that can be colored and shaped at pleasure, for amazing dynamic mid-air effects. This beam may be pointed at the audience or used as a dynamic color changing "sky-tracker", thus providing lighting designers with totally innovative options..

- 700 W discharge lamp
- Optical unit with extremely high luminous efficiency (90,000 lux at 10 m)
- Incredibly compact (head length = 435 mm) + lightweight (20 kg)
- Large savings in handling, installation, storage and consumption costs
- Extraordinarily wide, fast and linear pan and tilt movements
- Narrow and parallel 7° aperture beam
- CMY color system + color wheel, including CTO and CTB filters
- 15 gobos + 1 prism, to change the graphic effects and beam angle
- 0-100% hybrid dimmer (electronic + mechanical)
- Electronic focusing, for projecting images even at great distances
- Linear frost effect
- Iris on a dedicated channel
- Silent operation
- New generation high performance electronics
- Eco-friendly: may be used instead of higher wattage and more expensive searchlights and spotlights
- Modular construction for easy maintenance

## Standard accessories

Automatic break in power supply in case of overheating.  
Forced ventilation with axial fans.

**WORKING POSITION**

Working in any position.  
Hanging system: with fast-lock omega clamps (1/4 turn) on the base

# Alpha Wash 700

C61350

The Alpha Wash 700 is an extraordinarily compact lightweight 700 W washlight, with the luminous efficiency, graphic and optical performance of a higher category fixture. It is extremely silent and quick, and fitted with a complete CMY color system, special colors, 9°-50° zoom, hybrid dimmer, beam shaping filters and motorized top-hat. It is an eco-friendly light, allowing considerable running and consumption cost savings.

- 700W discharge lamp
- Optical unit with extremely high luminous efficiency (85,000 lux at 5 m in the centre of the beam)
- Incredibly compact (head length = 380 mm) + lightweight (20.5 kg)
- Large savings in handling, installation, storage and consumption costs
- Extraordinarily wide, fast and linear pan and tilt movements
- 9°- 50° electronic linear zoom + motorized top hat
- CMY color system + linear CTO + CTB + color wheel
- 2 adjustable beam shapers (ovalizer filter and "diamond tips" lens) on dedicated channels
- 0-100% hybrid dimmer (electronic + mechanical)
- Silent operation
- Extremely new design high performance electronics
- Eco-friendly: may be used instead of very much larger and more expensive spotlights
- Modular construction for easy maintenance

# Alpha Spot HPE 300

C61098

photometrics and  
other specifications  
[www.claypaky.it](http://www.claypaky.it)

external finish color on request:

chrome-plated

white

The Alpha Spot HPE 300 is compact, lightweight, silent, practical to install and extremely bright. It has superior graphic and optical performance and is the most complete spotlight in its category (300 W). It is ideal for every professional sector where the pluses of a "small" light need to be combined with the advantages of a "large" one.

- 300W discharge lamp
- 14,7°- 35° electronic linear zoom + uniform field lens on a dedicated channel
- CMY color system + color wheel + CTO conversion filters
- The widest range of effects in the category
- Graphic system: 15 gobos + 1 rotating prism
- Frost effect with adjustable projection angle
- Wide quick pan and tilt movements
- Silent operation ("Silent Version" system supplied as standard)
- Extremely new design high performance electronics
- Italian-style design (patented)
- Eco-friendly: may be used instead of very much larger and more expensive spotlights
- The first "300 W" spotlight with electronic ballast fitted as standard

## Standard accessories

# Alpha Wash 300

C61094

photometrics and  
other specifications  
[www.claypaky.it](http://www.claypaky.it)

external finish color on request:

chrome-plated

white

The Alpha Wash 300 is a compact, lightweight, silent 300 W washlight. It is practical to install, extremely bright and able to provide every shade required with an unrivalled color quality. Two frost levels on dedicated channels allow linear uniform color diffusion, even at short distances. Consequently these lights can be used throughout in the most demanding professional sectors.

- 300W discharge lamp
- CMY color mixing + color wheel (including CTO and CTB filters)
- Two linear frost effects on dedicated channels
- 12.5° to 32° beam width using frost effects
- Wide quick pan and tilt movements
- Silent operation ("Silent Version" system supplied as standard)
- Extremely new design high performance electronics
- Italian-style design (patented)
- Eco-friendly: may be used instead of very much larger and more expensive spotlights

18.2 Kg (40.1 lbs)

## Details

### POWER SUPPLIES

200 - 240V 50/60Hz  
100 - 120V 50/60Hz

### INPUT POWER

550VA at 230V 50Hz

### LIGHT SOURCE

300W discharge lamp:  
- Socket: PGjX28  
- Color Temperature: 9,300 K  
- Luminous flux: 22,000 lm  
- Average lamp: 750 h

### OPTICS

Elliptic reflector with high luminous efficiency  
Beam opening from 12° to 32° can be obtained by using the frost effects individually or together

### COLOR SYSTEM

CMY Color Mixing.  
Color Wheel with 8 pure and selected color filters + open CTO 2500 K and CTO 3200 K filters (on color wheel)

### EFFECTS SECTION

Two Different frost effects with linear variation, on two separated channels  
0-100% dimmer on dedicated channel.  
Stop/strobe effect.

### CONTROL AND PROGRAMMING

Max 17 DMX 512 control channels  
DMX protocol signal: USITT DMX 512  
Display: Graphic LCD Display  
Pan/Tilt Resolution: 16 bit  
Movement control: vectorial  
DMX signal connection: 3 and 5 pole XLR input and output  
Software upload through DMX input

### BODY

Aluminium structure with black die-cast plastic cover.  
Chrome-plated version available on request.  
Two side handles for transportation.  
PAN and TILT lock for transport and maintenance.

### MOVING BODY

Angle:

- PAN = 540°, TILT = 250°

Max Speeds:

- PAN = 3.15 sec (Stnd) / 2.75 sec (Fast)

- TILT = 1.95 sec (Stnd) / 1.65 sec (Fast)

Resolution:

- PAN = 2.11°, PAN FINE = 0.008°

- TILT = 0.98°, TILT FINE = 0.004°

### ELECTRONICS

Long life self-charging buffer battery.  
Pre-set macros.  
ON/OFF lamp control from the lighting desk.  
Function reset from the lighting desk.  
"HELP", "MEMO", "AUTOTEST" functions  
Possibility to upgrade the software through the DMX 512 input.  
Electronic control on each parameter.  
DMX level monitoring on each channel.  
Feedback information for each sensor and encoder.  
Electronic repositioning of the effects  
Automatic power supply switching

### SAFETY DEVICES

Bipolar circuit breaker with thermal protection.  
Automatic break in power supply in case of overheating.  
Forced ventilation with axial fans.

### WORKING POSITION

Working in any position.  
Hanging system: with fast-lock omega clamps (1/4 turn) on the base

white

SharpY Wash 330 is an extraordinarily compact, lightweight 330 W washlight, with the luminous efficiency, graphic and optical performance of a 1000 W fixture. It is extremely silent and quick, and fitted with a complete CMY color system, special colors, 6.5°-48° zoom, mechanical dimmer, beam shaping filter and motorized top-hat. At minimum beam angle, the SharpY Wash produces a beam like its brother SharpY: the two lights are designed to work perfectly together. It is an eco-friendly light, allowing considerable running and consumption cost savings.

- New 330W Lamp (8,000 K 1,500 h)
- Equalling the light output of a 1,000 Watt luminaire
- Small, lightweight and easily transported: only 18.5 Kg (40.8 lbs)
- Adjustable beam angle from 6.5° to 48°
- Motorised Top Hat (Clay Paky patent)
- CMY Color System + 11-color wheel + open
- Rotating beam shaper
- High speed movements and effects
- Frosted, smooth mechanical dimmer
- High speed Stop/Strobo effect
- Soft-edge Filter + heavy frost filter
- New, high-performance electronics
- Patented Italian design Eco-friendly: replaces far larger and more expensive washlights
- Electronic ballast fitted as standard
- Available in black, white, gold-plated and "mirror-finish" chrome plated versions

# Sharpy Wash 330 PC

C61379

The standard version of the award-winning Sharpy Wash is fitted with a Fresnel lens. The Sharpy Wash PC, with plano-convex lens, was created for those who want a uniform wash light, but at the same time prefer a more penetrating light with more pronounced edges. From the effects point of view, the Sharpy Wash PC is identical to the standard version: full CMY color mixing, special colors, mechanical dimmer, a rotating beam shaper, two frost shades and a motorized top hat. However, with the PC lens, the zoom only varies from 7° to 43°. This is a slightly narrower range, but with a higher light output, especially at wide angles.

- 330 watt lamp (8000 K, 1500 hours).
- Plano-convex lens for a less pronounced wash effect.
- Light output comparable to a 1000 watt light.
- Compact and lightweight: 20.5 kg (45.2 lbs).
- Motorized zoom from 7° to 43°.
- Motorized top hat which comes out with the zoom (Clay Paky patent).
- CMY color mixing + 11 color wheel + white.
- Rotating and indexable Beam-shaper
- High -speed movements and effects
- Frosted smooth mechanical dimmer
- High-speed Stop/Strobe
- Soft-edge + "heavy" frost filters
- Patented Italian Design
- Available in black, white, gold-plated and "mirror-finish" chrome plated versions

## Standard accessories

chrome-plated

gold

white

Sharpy is a 189W moving beam light with an unprecedented brightness usually achievable only with far greater wattages. Weighing just 19 Kg, Sharpy produces a perfectly parallel, laser-like beam with an incredible output of 59,760 lx at 20m (5,100 footcandles at 65 ft). Sharpy is also groundbreaking for the purity of its beam, which is sharply defined and free of any halo or discoloration around the edges. It offers 14 different colors and 17 gobos, allowing you to change the shape of the beam and create an array of spectacular mid-air effects.

With its light weight and modest footprint, Sharpy is small enough to be fitted anywhere – on trusses at live and TV events, on stage, in showrooms or conference rooms.

Sharpy is also available in a shiny mirror-finish chrome version, adding glamour to sets while making lights a less invasive presence.

- 189W discharge lamp
- Perfectly parallel, laser-like beam, sharply defined and free of any halo
- Unprecedented brightness – comparable to wattages many times higher (59,760 lx at 20m)
- Adjustable beam angle from 0 to 3.8°
- Interchangeable color wheel with 14 fixed colors
- Interchangeable gobo wheel with 17 fixed gobos
- 8-facet rotating prism
- Mechanical dimmer
- Frost Filter
- Rapid and extensive pan and tilt movements
- New, high-performance electronics
- Patented Italian design
- Small, lightweight and easily transported (only 48 cm x 19 kg)
- Eco-friendly: replaces far larger and more expensive spotlights
- Electronic ballast fitted as standard
- Available in "mirror-finish" chrome version

# Show-Batten 100

C71085 (Show-Batten 100)  
C71086 (Show-Batten 100 AS)

The Show-Batten 100 is a LED moving bar designed for stage lighting professionals. Ten high-power Osram Ostar RGBW LEDs are housed inside a 100 cm long (39") cylindrical aluminium bar. Each parameter of each LED may be controlled individually.

The Show-Batten lens is fitted with a wide electronic linear zoom. The zoom is very fast: 0.3 s from min. to max. The "Show-Batten AS" version has a special ovalizer filter instead of the standard lens, which increases the projection angle on a single axis. This is particularly suitable for wall washing.

The colors are generated through R, G, B and W channels, and may also be chosen from a wide palette consisting of over sixty macros. The color temperature can be linearly adjusted through a dedicated CTO channel. Several bars may be arranged in a line or a matrix, with a constant fixed distance between the LEDs.

- Light source: 10 X 15W Osram Ostar RGBW LEDs
- Distance between LEDs: 100 mm (4")
- "STANDARD" VERSION: - Optical unit with motorized zoom: minimum 10° x 23°, maximum 43° x 48° (at 50%); minimum 23° x 35°, maximum 66° x 76° (at 10%); - High brightness: 3340 lumens
- "AS" VERSION: - Asymmetrical optical unit with special motorized zoom for illuminating backdrops: minimum 8° x 25°, maximum 9° x 45° (at 50%); minimum 18° x 37°, maximum 21° x 74° (at 10%); - High brightness: 5210 lumens
- Independent RGBW color, dimmer and strobe control for each individual LED
- Effects: dimmer (16 bit), 24 Hz strobe, color macros and effect macros
- High speed motorized tilt: 240°
- Internal Ethernet switch for IN/OUT daisy-chain connection to easily connect bars up for pixel control in a matrix arrangement
- The length and width of the bar allow it to be assembled in horizontal and vertical matrices with a fixed distance between LEDs (100mm/4")
- Sockets within the dimensions of the bar to prevent accidental contact with adjacent trusses or bars in matrix arrangements

## A.LEDA B-EYE

- C61420 B-EYE K20
- C61421 B-EYE K20 CC
- C61419 B-EYE K10
- C61415 B-EYE K10 Easy
- C61418 B-EYE K10 CC

The A.leda B-EYE is a high performance wash light, a breathtaking beam light, and a creator of completely new spectacular visual effects. Its unparalleled versatility makes it an extremely interesting creative tool for all lighting designers.

B-EYE is first and foremost an excellent quality wash light. It is able to wash surfaces with colors at any distance, making the most of its light source. B-EYE is at least 20% brighter than any LED-wash with the same rated power, thanks to its special optical unit with a truly amazing lumen/watt ratio, designed and built by Clay Paky. The zoom ranges from 4° to 60° and it is therefore suitable both for environments with low ceilings (small theatres and TV studios, for example), where large angles are extremely useful, and for shows in arenas or large environments, where a tight zoom is perfect. When B-EYE beam is zoomed down to 4°, the "wash" light turns into a "beam" fixture. The B-EYE therefore becomes a surprising mid-air parallel effect light, capable of generating a pulsating beam of micro-rays, which may be controlled individually, each with its own colors and shades. All the parameters of each LED can be completely controlled. Lastly, B-EYE K20 and K10 introduces a completely new feature: the front lens may be rotated to create lots of small bright compositions, which may be opened and closed like petals. By adding colors and dynamic graphics, the B-EYE generates never-seen-before graphic light effects.

- Light Source: 15 W RGBW LEDs (the number of the LEDs depends on the model)
- Versatile, three operating modes: wash, beam, effects \*
- Unique optical system, featuring unmatched zoom range (4°-60°) and even light spread
- Individual LED control for each parameter
- Invisible front grid
- Beam edge softening control (in wash mode) \*
- Exclusive parallel beam consisting of an array of individually controllable micro-beams
- Enhanced electronic engine for dynamic beam pattern design, with digital accuracy and repeatability
- Rotating front lens for countless vortex effects, for aerial or "kaleidoscopic" projection use \*
- White CT Emulation 2500-8000K
- RGB auto-tuning to lamp CT Emulation
- Tungsten Lamp Emulation
- 0-100% linear dimmer on a dedicated channel
- Adjustable speed stop/strobe effect, with instantaneous blackout
- Modular construction for easy maintenance
- Silent Operation

Display: Graphic LCD backlit b/w Display  
Pan/Tilt Resolution: 16 bit  
Dimmer Resolution: 16 bit  
Movement control: vectorial  
DMX signal connection: 3 and 5 pole XLR input and output  
Software upload through DMX input

### BODY

Aluminium structure with die-cast plastic cover  
Two side handles for transportation  
PAN lock for transport and maintenance

### MOVING BODY

Movement by means of two stepper motors, controlled by microprocessor  
Automatic repositioning of PAN and TILT after accidental movement not controlled by control unit  
Angle:  
- PAN = 540°  
- TILT = 210°

### ELECTRONICS

Long-life auto-charging buffer battery  
Preset color and graphic effect macros  
Function reset controllable from a central control unit  
Menu-driven internal self-test function  
Art-Net / RDM  
Display: backlit black-and-white graphic LCD display  
Electronic check-up of every single parameter with error alarm  
DMX level monitoring on each channel  
Automatic internal data transmission error diagnostics  
Firmware upgrade even when the unit is not connected to the power supply  
Firmware transfer from one light to another

### SAFETY DEVICES

Automatic power safety derating in case of overheat of the LED board  
Forced ventilation

### WORKING POSITION

Working in any position  
Hanging system: with fast-lock omega clamps (1/4 turn) on the base

## A.LEDA B-EYE K10

C61419

■ 15 Kg (33.1 lbs)

B-EYE K10 features the same optics, color engine, visual and “beam” effects of the B-EYE K20, but it is fitted with 19 LEDs. Thanks to its light weight (only 15 kg), its small size and silent operation, it is particularly suitable for studio and theatre productions, where its unmatched versatility may be exploited.

### POWER SUPPLIES

100-240V 50/60Hz

### INPUT POWER

450VA

### TOTAL OUTPUT

5,500 lm

### LIGHT SOURCE

19 Osram Ostar RGBW LEDs  
LED Nominal Wattage: 15W  
LED Average Life: 50,000 h

### OPTICS

4°-60° Electronic Zoom Range

### EFFECTS SECTION

Three operating modes: wash, beam, FX (Kaleido effects)  
Front Lens Bi-directional Rotation  
Digital Wash-Beam Framing effect  
Beam edge softening control (in Wash mode)  
Pixel Patterning Macros with enhanced control  
0-100% linear electronic dimmer  
Adjustable speed stop/strobe effect, with instantaneous blackout  
Dedicated channel for color temperature setting  
White CT Emulation 2500-8000K  
RGBW auto-tuning to lamp CT Emulation  
Tungsten Lamp Emulation  
Slow Strobe: 1 flash/sec; Fast Strobe: 25 flash/sec

### CONTROL AND PROGRAMMING

Control channels: 21 basic channels + 76 pixel-mapping channels  
DMX protocol signal: USITT DMX 512  
Display: Graphic LCD backlit b/w Display  
Pan/Tilt Resolution: 16 bit  
Dimmer Resolution: 16 bit  
Movement control: vectorial  
DMX signal connection: 5 pole XLR input and output  
Software upload through DMX input

### BODY

Aluminium structure with die-cast plastic cover  
Two side handles for transportation  
PAN lock for transport and maintenance

### MOVING BODY

Movement by means of two stepper motors, controlled by microprocessor  
Automatic repositioning of PAN and TILT after accidental movement not controlled by control unit  
Angle:  
- PAN = 540°  
- TILT = 210°

### ELECTRONICS

Long-life auto-charging buffer battery  
Preset color and graphic effect macros  
Function reset controllable from a central control unit  
Menu-driven internal self-test function  
Art-Net / RDM  
Display: backlit black-and-white graphic LCD display  
Electronic check-up of every single parameter with error alarm  
DMX level monitoring on each channel  
Automatic internal data transmission error diagnostics  
Firmware upgrade even when the unit is not connected to the power supply  
Firmware transfer from one light to another

### SAFETY DEVICES

Automatic power safety derating in case of overheat of the LED board  
Forced ventilation

### WORKING POSITION

Working in any position  
Hanging system: with fast-lock omega clamps (1/4 turn) on the base

## A.LEDA B-EYE K10 EASY

C61415

14.5 Kg (31.9 lbs)

This luminaire is highly suitable for all uses where visual effects are not needed. Washlight and Beamlight features are identical to the B-EYE K10 ones. Light-weight, compact size, high output and outstanding performance/cost ratio make B-EYE K10 "easy" a very valuable alternative.

### POWER SUPPLIES

100-240V 50/60Hz

### INPUT POWER

450VA

### TOTAL OUTPUT

4,800 lm

### LIGHT SOURCE

19 Osram Ostar RGBW LEDs  
LED Nominal Wattage: 15W  
LED Average Life: 50,000 h

### OPTICS

4°-60° Electronic Zoom Range

### EFFECTS SECTION

Two operating modes: wash and beam  
Pixel Patterning Macros with enhanced control  
0-100% linear electronic dimmer  
Adjustable speed stop/strobe effect, with instantaneous blackout  
Dedicated channel for color temperature setting  
White CT Emulation 2500-8000K  
RGBW auto-tuning to lamp CT Emulation  
Tungsten Lamp Emulation  
Slow Strobe: 1 flash/sec; Fast Strobe: 25 flash/sec

### CONTROL AND PROGRAMMING

Control channels: 20 basic channels + 76 pixel-mapping channels  
DMX protocol signal: USITT DMX 512  
Display: Graphic LCD backlit b/w Display  
Pan/Tilt Resolution: 16 bit  
Dimmer Resolution: 16 bit  
Movement control: vectorial  
DMX signal connection: 5 pole XLR input and output  
Software upload through DMX input

### BODY

Aluminium structure with die-cast plastic cover  
Two side handles for transportation  
PAN lock for transport and maintenance

### MOVING BODY

Movement by means of two stepper motors, controlled by microprocessor  
Automatic repositioning of PAN and TILT after accidental movement not controlled by control unit.  
Angle:  
- PAN = 540°  
- TILT = 210°

### ELECTRONICS

Long-life auto-charging buffer battery  
Preset color and graphic effect macros  
Function reset controllable from a central control unit  
Menu-driven internal self-test function  
Art-Net / RDM  
Display: backlit black-and-white graphic LCD display  
Electronic check-up of every single parameter with error alarm  
DMX level monitoring on each channel  
Automatic internal data transmission error diagnostics  
Firmware upgrade even when the unit is not connected to the power supply  
Firmware transfer from one light to another

### SAFETY DEVICES

Automatic power safety derating in case of overheat of the LED board  
Forced ventilation

### WORKING POSITION

Working in any position  
Hanging system: with fast-lock omega clamps (1/4 turn) on the base

## A.LEDA B-EYE K20 CC

C61421

21 Kg (46.3 lbs)

Created for those many professional users who wish to use the superior optical characteristics of B-EYE technology exclusively in the wash mode and do not need the mid-air and graphic effects. It offers complete color and white light management.

### POWER SUPPLIES

100-240V 50/60Hz

### INPUT POWER

750VA

### LIGHT SOURCE

37 Osram Ostar RGBW LEDs  
LED Nominal Wattage: 15W  
LED Average Life: 50,000 h

### OPTICS

4°-60° Electronic Zoom Range

### EFFECTS SECTION

0-100% linear electronic dimmer  
Adjustable speed stop/strobe effect, with instantaneous blackout  
Dedicated channel for color temperature setting  
White CT Emulation 2500-8000K  
RGBW auto-tuning to lamp CT Emulation  
Tungsten Lamp Emulation  
Slow Strobe: 1 flash/sec; Fast Strobe: 25 flash/sec

### CONTROL AND PROGRAMMING

Control channels: 20 basic channels  
DMX protocol signal: USITT DMX 512  
Display: Graphic LCD backlit b/w Display  
Pan/Tilt Resolution: 16 bit  
Dimmer Resolution: 16 bit  
Movement control: vectorial

## A.LEDA WASH

**C61410 WASH K20**  
**C61405 WASH K10**  
**C61413 WASH K20 CC**  
**C61408 WASH K10 CC**  
**C61411 WASH K20 TW**  
**C61406 WASH K10 TW**  
**C61412 WASH K20 W**  
**C61407 WASH K10 W**

The A.leda Wash range includes washlight models which differ in power, size and LED pixel control, but are all moving heads with wide and fast pan and tilt movements. They are fitted with multichip RGBW LEDs that produce a full range of vivid colors as well as excellent shades of white. With A.leda K20, K10 and K5, the colors of each LED can be controlled separately: this unique feature not only allows you to create an endless range of color variations, but also to use each LED of the array as a pixel and draw all kinds of graphic images that change dynamically both in shape and color. To ease operation, each light has a library of pre-programmed graphic effects, which operators may customise by changing each parameter: intensity of each color, speed of change, etc. A.leda Wash fixtures come also with CC (Color Changer), TW (Tunable White) and W (White) versions.

- Light source: 15 W RGBW\* LEDs (the number of LEDs depends on the model)
- 14°-70° electronic linear zoom (K20 and K10 models); 12° beam angle (K5 model)
- 0-100% linear dimmer on a dedicated channel
- Adjustable speed stop/strobe effect, with instantaneous blackout
- Each LED color can be dynamically and individually controlled \*\*
- Preset color and graphic effect macros \*\*
- Dedicated channel for color temperature setting
- Each model is extremely compact and light-weight for its power class
- Very fast linear 540° pan and 240° tilt movements
- New design high performance electronics
- Modular construction for easy maintenance
- Long-life auto-charging buffer battery
- Silent operation

(\*) A.leda Wash K20, K10, K5, K20 CC and K10 CC only

## A.LEDA WASH K20

C61410

19 Kg (41.9 lbs)

A.leda Wash K20 is the model at the top of the A.leda Wash Series. Featuring RGBW system with individual control of each LED, it offers a valid alternative to discharge lamp washlights, adding all the benefits of LED technology: low energy consumption, long light source life, small size, light weight and robustness.

### POWER SUPPLIES

100-240 V 50/60 Hz

### INPUT POWER

450VA

### TOTAL OUTPUT

10,500 lm

### LIGHT SOURCE

Light source: 37 x 15 W RGBW LEDs  
LED Average life: 50,000 h

### OPTICS

14°-70° electronic zoom (8°-55° at 50% of max illumination)

### EFFECTS SECTION

0-100% electronic linear dimmer  
RGBW color system  
Individual control of each LED  
Adjustable speed stop/strobe effect, with instantaneous blackout  
Preset color and graphic effect macros  
Dedicated channel for color temperature setting

### CONTROL AND PROGRAMMING

DMX control channels: 20 basic channels + 148 pixel-mapping channels  
Protocol signal: USITT DMX 512  
Display: Graphic LCD backlit b/w Display  
Pan/Tilt Resolution: 16 bit  
Dimmer Resolution: 16 bit  
Movement control: vectorial  
DMX signal connection: 3 and 5 pole XLR input and output  
Software upload through DMX input

### BODY

Aluminium structure with die-cast plastic cover  
Two side handles for transportation  
PAN lock for transport and maintenance

### MOVING BODY

Angle: PAN=540°, TILT=240°

### ELECTRONICS

Long-life auto-charging buffer battery  
Preset color and graphic effect macros  
Function reset controllable from a central control unit  
Menu-driven internal self-test function  
Art-Net / RDM  
Electronic check-up of every single parameter with error alarm  
DMX level monitoring on each channel  
Automatic internal data transmission error diagnostics  
Firmware upgrade even when the unit is not connected to the power supply  
Firmware transfer from one light to another

### SAFETY DEVICES

Automatic power safety derating in case of overheat of the LED board

### WORKING POSITION

Working in any position  
Hanging system: with fast-lock omega clamps (1/4 turn) on the base

## A.LEDA WASH K10

C61405

■ 13.5 Kg (29.8 lbs)

A.Leda Wash K10 is the mid-range model in the A.Leda Wash Series. Featuring RGBW system with individual control of each LED, it offers a valid alternative to discharge lamp washlights, adding all the benefits of LED technology: low energy consumption, long light source life, small size, light weight and robustness.

### POWER SUPPLIES

100-240 V 50/60 Hz

### INPUT POWER

450VA

### TOTAL OUTPUT

5,500 lm

### LIGHT SOURCE

Light source: 19 x 15 W RGBW LEDs  
LED Average life: 50,000 h

### OPTICS

14°-70° electronic zoom (8°-55° at 50% of max illumination)

### EFFECTS SECTION

0-100% electronic linear dimmer  
RGBW color system  
Individual control of each LED  
Adjustable speed stop/strobe effect, with instantaneous blackout  
Preset color and graphic effect macros  
Dedicated channel for color temperature setting

### CONTROL AND PROGRAMMING

DMX control channels: 20 basic channels + 76 pixel-mapping channels  
Protocol signal: USITT DMX 512  
Display: Graphic LCD backlit b/w Display  
Pan/Tilt Resolution: 16 bit  
Dimmer Resolution: 16 bit  
Movement control: vectorial  
DMX signal connection: 5 pole XLR input and output  
Software upload through DMX input

### BODY

Aluminium structure with die-cast plastic cover  
Two side handles for transportation  
PAN lock for transport and maintenance

### MOVING BODY

Angle: PAN=540°, TILT=240°

### ELECTRONICS

Long-life auto-charging buffer battery  
Preset color and graphic effect macros  
Function reset controllable from a central control unit

## A.LEDA WASH TW

K20 C61411

K10 C61406

photometrics and  
other specifications  
[www.claypaky.it](http://www.claypaky.it)

A.leda Wash K20 TW and A.leda Wash K10 TW (Tuneable White) are powerful, high quality LED washlights, providing tuneable white color temperature through additive mixing, ranging smoothly from 2,700 to 8,000 K.

### POWER SUPPLIES

100-240 V 50/60 Hz

### INPUT POWER

- K20: 750VA  
- K10: 450VA

### TOTAL OUTPUT

- K20: 14,300 lumen  
- K10: 6,800 lumen

### LIGHT SOURCE

- K20: 37 x 15 W RGBW LEDs  
- K10: 19 x 15 W RGBW LEDs  
Average LED life: 50,000 h

### OPTICS

14°-70° electronic zoom (8°-55° at 50% of max illumination)

### EFFECTS SECTION

Warm white + cool white LED control  
Dedicated channel for color temperature setting  
0-100% electronic linear dimmer  
Adjustable speed stop/strobe effect, with instantaneous blackout  
Preset color macros

### CONTROL AND PROGRAMMING

DMX control channels: 15 basic channels  
Protocol signal: USITT DMX 512  
Display: Graphic LCD backlit b/w Display  
Pan/Tilt Resolution: 16 bit  
Dimmer Resolution: 16 bit  
Movement control: vectorial  
DMX signal connection: 5 pole XLR input and output  
Software upload through DMX input

### BODY

Aluminium structure with die-cast plastic cover.  
Two side handles for transportation.  
PAN lock for transport and maintenance.

### MOVING BODY

Angle:  
- PAN = 540°  
- TILT = 270°

### ELECTRONICS

Long-life auto-charging buffer battery  
Function reset controllable from a central control unit  
Menu-driven internal self-test function  
Display: backlit black-and-white graphic LCD display  
Electronic check-up of every single parameter with error alarm  
DMX level monitoring on each channel  
Automatic internal data transmission error diagnostics  
Firmware upgrade even when the unit is not connected to the power supply  
Firmware transfer from one light to another

### SAFETY DEVICES

Automatic power safety derating in case of overheat of the LED board

### WORKING POSITION

Working in any position.  
Hanging system: with fast-lock omega clamps (1/4 turn) on the base

## A.LEDA WASH W

K20 C61412  
K10 C61407

photometrics and  
other specifications  
[www.claypaky.it](http://www.claypaky.it)

A.leda Wash K20 W and A.leda Wash K10 W (White) are punchy moving head floodlights generating a fixed 7500K white light, with even light diffusion.

### POWER SUPPLIES

100-240 V 50/60 Hz

### INPUT POWER

- K20: 750VA  
- K10: 450VA

### TOTAL OUTPUT

- K20: 21,700 lumen  
- K10: 10,500 lumen

### LIGHT SOURCE

- K20: 37 x 15 W RGBW LEDs  
- K10: 19 x 15 W RGBW LEDs  
Average LED life: 50,000 h

### OPTICS

14°-70° electronic zoom (8°-55° at 50% of max illumination)

### EFFECTS SECTION

Cool white LED control  
0-100% electronic linear dimmer  
Adjustable speed stop/strobe effect, with instantaneous blackout

### CONTROL AND PROGRAMMING

DMX control channels: 10 basic channels  
Protocol signal: USITT DMX 512  
Display: Graphic LCD backlit b/w Display  
Pan/Tilt Resolution: 16 bit  
Dimmer Resolution: 16 bit  
Movement control: vectorial  
DMX signal connection: 5 pole XLR input and output  
Software upload through DMX input

### BODY

Aluminium structure with die-cast plastic cover.  
Two side handles for transportation.  
PAN lock for transport and maintenance.

### MOVING BODY

Angle:  
- PAN = 540°  
- TILT = 270°

### ELECTRONICS

Long-life auto-charging buffer battery  
Function reset controllable from a central control unit  
Menu-driven internal self-test function  
Display: backlit black-and-white graphic LCD display

DMX level monitoring on each channel  
Automatic internal data transmission error diagnostics  
Firmware upgrade even when the unit is not connected to the power supply  
Firmware transfer from one light to another

### SAFETY DEVICES

Automatic power safety derating in case of overheat of the LED board

### WORKING POSITION

Working in any position.  
Hanging system: with fast-lock omega clamps (1/4 turn) on the base

# LED-based static lights

Stormy

Stormy CC

GlowUp Strip 100

GlowUp C

GlowUp TW

GlowUp W

# Stormy

**C71090 Stormy**  
**C71091 Stormy CC**

Stormy innovates tradition since it uses the latest LED technology, but retains all the charm of a classic strobe. The light source is a strip of powerful white LEDs, which perfectly emulate a bright Xenon linear lamp. The flash effect is actually enhanced since the Stormy is equipped with a parabolic reflector, like a classic strobe, and does not project the light directly forwards like other LED strobes do. The frequency, duration and intensity of the pulse are fully digitally controlled, and these parameters are even independently adjustable, which is impossible with a xenon lamp strobe. Thanks to its highly sophisticated electronics, the light turns on and off instantly, creating the jerky movement illusion. The time the light is on (the pulse duration) may be extended as required. Thanks to the use of LEDs, the light intensity remains absolutely constant, without flickering effect. The Stormy also comes with RGBW LEDs (Stormy CC), which are able to flash in any color: there is no more need for gels, which dramatically reduce the amount of light, or slow noisy unreliable scrollers.

- 144 x 7W Osram Osram LEDs (5,700 K, 50,000 h)
- LED Power: pulsed mode 980W max, continuous mode 720W max
- Perfect emulation of a bright Xenon strobe linear lamp
- 42° beam aperture; 130° spatial diffusion
- Beam opening control by optional barndoors
- RGBW system (only Stormy CC)
- Total brightness: - 80,000 lm (Stormy); - 40,000 lm (Stormy CC)
- DMX 512 control channels: 3 (Stormy), 7 (Stormy CC)
- 0-100% adjustable dimmer
- Strobe pulse duration - strobe pulse rate
- Bracket adjustable on 360°

## Optional accessories

CLAMPS - code C21070

SAFETY CABLE Ø 2,5mm, lenght 480mm - code 105015/801

BARNDOORS - code C71116

ROXTER-CASE (including foam shells + wheels) for 6 Stormy units - code F21265

photometrics and  
other specifications  
[www.claypaky.it](http://www.claypaky.it)

## Versions

### Stormy

The light source is a strip of powerful white LEDs with a 5,700 K color temperature; thanks to their linear arrangement, they perfectly emulate a bright Xenon linear lamp.

### Stormy CC

Stormy also comes with RGBW LEDs, which are able to flash in any color. At last, there is no more need for gels, which dramatically reduce the amount of light, or slow noisy unreliable scrollers.

 7.2 kg (15.13 lbs)

## Details

### POWER SUPPLIES

AC power input Neutrik PowerCon TRUE1 (IP65)  
100-240V 50-60Hz

### INPUT POWER

850 VA

### LIGHT SOURCE

144 x 7W Oslon Osram LEDs  
LED Power: pulsed mode 980W max, continuous mode 720W max  
Color Temperature: 5700 K  
Average Life of the LEDs: 50,000 h

### OPTICS

High efficiency parabolic reflector  
Perfect emulation of a bright Xenon linear lamp  
42° beam aperture; 130° spatial diffusion  
Beam opening control by optional barndoors  
Total brightness:  
- 80,000 lm (Stormy)  
- 40,000 lm (Stormy CC)

### COLOR SYSTEM

RGBW system (Stormy CC only)

### EFFECTS SECTION

0-100% adjustable dimmer  
Strobe pulse duration  
Strobe pulse rate

### CONTROL AND PROGRAMMING

DMX 512 control channels:  
• 3 (Stormy)  
• 7 (Stormy CC)  
DMX protocol signal: USITT DMX 512  
Display: Graphic LCD backlit blue-white Display  
Dimmer and colors Resolution: 8 bit  
DMX signal connection: 5 pole XLR input and output  
Software upload through DMX input  
Firmware upload from another fixture

### ELECTRONICS

"AUTOTEST" function from menu  
Pre-set macros  
Electronic monitoring with status error  
Cooling system monitoring  
DMX level monitoring on all channels  
Internal data transmission diagnostics

### BODY

Body extruded in black anodized aluminium  
4 membrane buttons

### SUPPORT

Bracket adjustable on 360°

### SAFETY DEVICES

Forced ventilation with axial fans

### WORKING POSITION

Working in any position

# GlowUp Strip 100

C71080

GlowUp Strip 100 is a LED bar for professional stage lighting, with mixed battery/mains power supply and mixed cable/wireless control. 10 powerful RGB-W multi-chip LEDs are arranged in a line inside a 100 cm linear aluminium housing suitable for outdoors use (IP65). The fixture creates a curtain of brightly colored light, with a beam angle that can be adjusted from 14° to 70° using an electronic motorized zoom. The LEDs can be controlled separately in groups of 5, and the original "white power saving" function helps optimize power consumption. Several bars can be placed in a line or in a matrix, keeping the distance between the LEDs fixed. Thanks to its battery and wireless control, GlowUp Strip100 is particularly suitable for use in temporary events and tours.

- Power supplies: Internal battery (full power battery life: 10 hours)
- Light source: 10 X 10W RGBW Ostar LEDs (OSRAM)
- Distance between LEDs: 100 mm
- Rated light output: 3000 lumen
- The color of the LEDs can be controlled separately in groups of 5 (left and right)
- DMX-controlled electronic motorized zoom: 14°-70°
- Optional diffuser or ovalizer filters, which may be adjusted to provide a beam of light with controllable width
- Dimmer: linear from 0 to 100% on a dedicated channel
- Adjustable speed stop/strobe effect, with instantaneous blackout
- Silent operation
- Preset color and effect macro
- Wireless DMX: Tx/RX operating modes
- IP65 protection rating (IP65 protection socket cover)
- Flight case for 4 bars with mains power socket for battery charger

photometrics and  
other specifications

## Standard accessories

OMEGA for fixing clamps - code 183102/805

## Optional accessories

CLAMPS 48-51mm, max 300 Kg hooks for truss - code C21070  
SAFETY CABLE Ø 4mm, length 680mm - code 105041/003  
W-DMX Transmitter - code B10153  
ROXTER-CASE for 4 GlowUp Strip 100 with direct battery recharge - F21250

15 kg (33 lbs)

## Details

### POWER SUPPLIES

100-240V 50-60Hz  
 PowerCon connector, for both battery charge and normal operation  
 Battery life: 10 hours full  
 Charging by Flight Case or PowerCon  
 More than 2000 charge/deplete cycles  
 No memory effect  
 No acid leaks

### TOTAL OUTPUT

3,400 lm

### INPUT POWER

200 VA (GlowUp Strip)  
 650 VA (GlowUp Strip's flight case)

### LIGHT SOURCE

10x 10W Ostar Osram LEDs  
 LED Color Temperature: 6,000 K  
 LED pilot Power: 100W  
 Total luminous flux: 3,400 lm

### OPTICS

14°-70° Electronic Motorized Zoom  
 Optional diffusion filters

### COLOR SYSTEM

RGBW system  
 Color macros (55 static colors and color-changing sequences)

### EFFECTS SECTION

0-100% dimmer  
 Stop/Strobe

### CONTROL AND PROGRAMMING

Wireless DMX multimode: Master, Slave and Repeater  
 IP65 Antenna built in the case  
 Master: can transmit other slaves the synchronised DMX scenes saved on it, both as macros and as DMX recorder.  
 Repeater: Receives the signal from the master and re-transmits it to other Slaves hidden from the master  
 XLR 5-pole DMX-in DMX-out standard sockets  
 Remote wireless board settings with PC  
 Default macros, user programmable macros.  
 DMX recorder to save scene sequences.  
 User interface: LCD display 2 lines with 16 characters each, backlit LED, white on black; 4 membrane buttons

### BODY

IP65 Protection Rate  
 IP65 Compensation valve  
 Body extruded in black anodized aluminium  
 2 carrying handles  
 4 non-slip rubber feet  
 4 fast-look holes for omega hook-up

### SUPPORT

Head adjustment on 90°

### SAFETY DEVICES

Cooling by convection  
 Eyebolts for safety cables

### WORKING POSITION

Working in any position

# GlowUp

- C71050 GlowUp C (RGBW)**
- C71055 GlowUp TW (Tunable White)**
- C71060 GlowUp W (cool White)**

GlowUp is a portable, battery-powered, IP65 luminaire that removes the logistical headache of running cables at events – dramatically reducing set-up time, while saving money and improving safety. Based on durable, high-power LEDs, GlowUp offers years of energy-efficient service. Power is stored in a rechargeable lithium battery, a tried and tested technology found in many portable consumer devices such as mobile phones. GlowUp is fully programmable allowing users to select scenes from a library containing a number of pre-programmed sequences. Each fixture has a wireless onboard data receiver, so several fixtures can be synchronized at once wirelessly; however GlowUp can be cable-connected using standard DMX cables.

- Light source: 4 x 10W LEDs (Options: RGBW, Tunable White, cool White)
- Nominal power: 50W - Total output: 1200 lm
- Zoom: manually adjustable beam 15°-30°
- Choice of magnetically attachable filters and diffusers
- Smooth, linear 0-100% dimmer
- Optical aiming: manual tilt, ± 105°
- Power supply: battery or AC mains
- Durability: 2000 charge cycles
- Battery type: Lithium-iron-phosphate
- Battery life: 10 hrs (at full power), 20 hrs (when color changing)
- Battery charge time: 4 hrs (in flight case), 8 hrs (when connected to mains)
- Control options: Autonomous, Master/Slave or DMX (either wireless or via data cable)
- Menu interface: IP65, with 4 touch buttons and LCD display
- Construction: UV-resistant ABS polymer and steel (IP65)
- Finish: available in chrome-plated, white and black
- Flight case for 6 units with mains power socket for battery charger

## Optional accessories

- FIXING BRACKET KIT (includes omega + safety cable Ø 2.5 mm, length 480 mm) - code C71110
- GEL HOLDING FRAME for GlowUp - white and black finish - code C71111
- W-DMX Transmitter - code B10153
- ROXTER-CASE (recharging up to 6 GlowUp units flight case) - code F21230
- ROXTER-CASE (recharging up to 6 GlowUp units flight case) with feeding bay - code F21235

## Versions

### GlowUp C (RGBW)

Fully programmable, color-changing accent light providing rich decorative illumination for events, parties, weddings, presentations and product launches – perfect for enhancing interiors, facades, landscapes and gardens.

### GlowUp TW (Tunable White)

This model is able to create variations in color temperature from warm white to cool white. It is designed for situations where just the right shade of white is required to emphasize architectural features faithfully: ideal for museums, art galleries, archaeological sites, churches, and heritage buildings.

### GlowUp W (cool White)

Standard, bright, white beam for industrial and functional applications. Provides a temporary reserve of light in emergency situations – easy to carry, cable-free and professional. Perfect for security and emergency services.

 7.5 kg (16.5 lbs)

## Details

### EXTERNAL POWER

full range 100-240V 50-60Hz, PowerCon connector for both battery charge and normal operation

### INPUT POWER

50W max - 170 VA

### LIGHT SOURCE

4x10 W leds

### LED PILOT POWER

40W

### LED COLOR TEMPERATURE

5700 K GlowUP C  
6000 K GlowUP W  
6200 K cool white GlowUP TW

Shadow Basic

# Shadow QS-LT

C11040

The Shadow QS-LT is a 1200 W intelligent long-throw followspot. It uses sophisticated intelligent spotlight technology and has all the indispensable characteristics of a professional followspot. It is particularly suitable for use in television or cinema. The beam angle can be switched thanks to a built-in wide-angle lens, thus making it suitable for ranges of between 15 and 50 metres.

- Intelligent long-throw followspot for long distances
- 1200 W discharge lamp
- Adjustable electronic control panel (90°) with practical push buttons and sliders
- Standard 3.8° lens (optimal range of between 30 and 50 m)
- Switchable 7.4° built-in wide-angle lens (optimal range of between 15 and 38 m)
- Color wheel with 7 colors + CTO filter + CTB filter
- Fixed gobo holder
- 0-100% iris with adjustable gradual opening speed
- 0-100% mechanical linear dimmer + stop/strobe
- Simultaneous control of several followspots from a remote control desk or single control panel

## Standard accessories

HMI 1200W/GS (6000 K) OSRAM LAMP - code L10030

## Optional accessories

SIDE MOUNTING KIT FOR SHADOW QS-LT PANEL - code C31129

FIXED GOBO HOLDER KIT - code 105029/801

FAN COVER KIT - code C31144

FLIGHT CASE WITH CASTERS - code F21125

FLIGHT CASE WITHOUT CASTERS - code F21126

**Color filters** Ø 47 mm

 49 kg (108 lbs)

## Details

### POWER SUPPLIES

220 - 240V 50Hz  
200 - 220V 60Hz

### INPUT POWER

1500VA at 230V 50Hz

### LIGHT SOURCE

1200W discharge lamp:  
- Socket: SFC 15,5-6  
- Color temperature: 6,000 K  
- Luminous flux: 110,000 lm  
- Average life: 750 h

### OPTICS

Twin lens condenser  
High luminous efficiency spherical reflector  
Standard 3,8° lens (optimal range of between 30 and 50 m)  
Built-in optional wide angle (7,4°) for insertion inside the projector  
External focussing knob on rear panel with graduated scale and pointer

### COLOR SYSTEM

Wheel with 7 interchangeable color filters + open  
2 color correction temperature (CTO + CTB)

### EFFECTS SECTION

Iris  
0-100% Dimmer  
Stop/strobe (1-7 flash / sec).

**followspot | Shadow Qs-LT**

### CONTROL AND PROGRAMMING

4 DMX 512 control channels  
DMX signal connection: 5 pole XLR input and output  
Digital serial input RS232/423(PMX)  
0-10V analog input

#### Controlling one Shadow QS only

- Control from the built-in control panel (stand alone).
- Total control from the remote external desk, connected to the followspot via digital or analog signal (instead of the built-in panel).
- Both local and remote control. The built-in panel is connected up normally; the remote desk is connected to the spotlight analog input.

#### Controlling more than one Shadow QS

- Simultaneous control of all followspots from one remote control desk. Connect the first followspot and all other units in a chain to the desk via the digital in/out sockets. All the functions will be controlled from the remote desk according to the projector addresses.
- Simultaneous parallel control of more than one spotlight, from a single built-in control panel. Connect the first spot light to the others in a chain via the digital in/out sockets. The control panel of the first spotlight acts as a controller for the other lights, operating them simultaneously, with identical functioning.

### BODY

In die-cast and extruded aluminium.  
Epoxy powder painting.

### SUPPORT

Steel bracket, with epoxy powder coated finish  
Six installation positions, 25 mm apart  
Bracket adjustable through 100° with graduated scale for position finding

### SAFETY DEVICES

Automatic break in power supply in case of overheating  
Power supply cut off automatically on opening the sidecovers.  
Forced ventilation with axial fans.

### WORKING POSITION

Working in any position.

# Shadow QS-ST

C11039

The Shadow QS-ST is a 1200 W intelligent followspot for medium-long range coverage needs. Its power and luminous efficiency make it particularly suitable for use in television or cinema.

Thanks to its reduced size and compact shape, it is recommended as a truss-mounted followspot. A system of interchangeable lenses (normal or optional wide-angle) means it can be used at an optimal range of between 10 and 30 metres.

- Intelligent short-throw followspot for medium-long range use
- 1200 W discharge lamp
- Adjustable electronic control panel (90°) with practical push buttons and sliders
- Standard 11.4° lens (optimal range of between 10 and 25 m)
- Optional 24.7° wide-angle lens (optimal range of between 5 and 10 m)
- Color wheel with 7 colors + CTO filter + CTB filter
- Fixed gobo holder
- 0-100% iris with adjustable gradual opening speed
- 0-100% mechanical linear dimmer + stop/strobe
- Simultaneous control of several followspots from a remote control desk or single control panel

# IGLOO

**C61199 IGLOO WL (with W-DMX)**  
**C61197 IGLOO EASY (without W-DMX)**  
**C61196 IGLOO ECO**

Whenever moving lights are installed outdoors – either permanently for architectural applications or during temporary events and festivals – protecting such sensitive equipment against the elements becomes essential. The Igloo was created by Clay Paky for exactly this purpose – a tough, sturdy enclosure that offers complete protection against rain and humidity, and maintains a perfect working temperature (between 0°C and 35°C) for fixtures even in hot or sub-zero conditions. The Igloo is great for permanent installations and is an indispensable tool for rental companies who want to protect their stock of lighting during outdoor events and festivals. Above all, the Igloo is quick to install, simple to use and competitively priced.

- Base: ABS and stainless steel
- Cover: fully transparent dome, in injection molded polycarbonate, UV protected
- Transparency: gobos projection with no image distortion
- Enclosure protection grade: IP54
- Electrical inlets (all with waterproof glands and 1.5 m power cable): n.1 in the W-DMX version; n.2 in the Easy version
- Fixture internal power connection: with integrated Powercon plug
- DMX512 control: built-in receiver (and transmitter) in the W-DMX version; DMX in/out wires in the Easy Version
- DMX512 connectors: in/out connectors with cable glands available in both versions; the Easy version has pre-mounted DMX cables (1,5 m)
- Cooling: sensor-controlled fan system, maintaining internal temperature < 35°C
- Heating: sensor-controlled heater, maintaining internal temperature above 0°C
- Working position: any (including base-up installation)
- Fixture mounting: multiple internal fixing positions, matching diverse fixture sizes
- Ventilation: adjustable hoses with automatic position detection and alarm
- Ground positioning: 4 adjustable feet for perfect horizontal levelling
- Transport: 4 built-in carrying handles
- Packaging: carton box or flight-case (optional)

Igloo models are suitable for the following luminaires (or equivalent in size and consumption):

- Clay Paky Mythos / Supersharpy (max. ambient temperature: +25°C / +77°F)
- Clay Paky A.leda B-EYE series / A.leda Wash series (all models)
- Clay Paky Sharpy and Sharpy Wash
- Clay Paky Alpha 700 series
- Clay Paky Alpha 300 series

**roxtter-cases**

## Roxter-case

Flight cases are an essential tool for protecting lighting fixtures from the rigours of shipping and touring. For its own moving lights, Clay Paky has designed a range of flight cases built with the same spirit of innovation and ruggedness, distinctive features of Clay Paky's products.

The new Clay Paky Roxter-Case uses modern materials and technologies to solve the complex, and often contradictory, challenges faced by touring personnel today – the flight case had to be tough and robust yet at the same time easy to handle and lightweight.

Superior quality has been certified by strict compliance with ATA standards for commercial shipping. Each detail has been studied with reference to how Clay Paky lights are used and handled in the touring world.

- Heavy-duty ball corners made of tough ABS and nylon composite to absorb shocks and prevent damage
- Wide aluminum corner profiles (50 mm) reinforce against falls and impacts
- Sturdy, crushproof cage structure formed by aluminum and ABS corners firmly bolted together
- Tough, weatherproof shell made from treated pine plywood
- Plywood panels securely glued into deep 25 mm groove without rivets to ensure a tight waterproof seal with rubber gaskets
- 2 swivel casters + 2 swivel casters with brakes (40 mm blue rubber tread): smooth, quiet operation and resistant to heat and chemicals
- Rounded edges (20 mm radius) facilitate handling and prevent injury
- Top-quality butterfly latches, spring-loaded and recessed
- Recessed, spring-loaded handles with chunky, easy grip
- All surfaces perfectly flush with no protruding parts, optimizing use of space during transport or storage
- Size and dimensions optimized for loading onto trucks
- Flight cases can be stored upright or on their side without any damage to their contents
- Protective molded foam shells available for Clay Paky models
- Registered and patent-pending design

# Hands On

C24102

HandsOn is an innovative control system that allows you to program a medium-sized computerized lighting system using your PC. It transforms your screen into an intuitive direct access control interface for any DMX 512 fixture, including lights with conventional lamps or LEDs, dimmers, lasers, smoke machines, and any other effect. HandsOn consists of sophisticated software and a revolutionary interface/driver that looks just like a small connector.

- Multi-platform: compatible with all major PC operating systems: Mac OS X / Microsoft Windows / Ubuntu Linux.
- A clear simple graphic interface
- Everything under control on one screen page
- A simple cable as DMX interface
- Touch Screen: you can transform your monitor into an interactive interface
- Remote control using an iPhone
- The programming method is the same as that used by the most famous professional lighting desks
- Multilingual support
- DMX Out and compatible with all existing and future fixtures
- DMX 512A + Art-net protocols
- 512 channels/ 48 fixtures
- 64 playback faders + 64 buttons
- Use your MIDI keyboard to control the lights
- A library of more than 2100 fixtures of all makes
- All the computer functions you are used to (Copy and Paste, Undo....)
- A universal DMX control
- The ideal interface for your Clay Paky fixtures

Download for free your software demo copy at [www.claypaky.it/](http://www.claypaky.it/)!

# FUL Firmware Uploader

C61206

Born from one of the fastest interfaces available on the market, Clay Paky's Firmware Uploader Kit gives you a safe and fast way to upgrade your fixture's firmware.

- Entirely microprocessor controlled electronics.
- 1500V full isolation to protect your computer from any kind of surge.
- Both in and out connectors, allowing you to upload firmware whether from the start or the beginning of DMX lines.
- Internal frame buffer.
- User upgradeable internal firmware.
- Available for the Alpha 1500 series / Alpha 700 series / Sharpy / Spotlight Wash

## General Sales Conditions

### 1. General Information

Invoices, order confirmations and offers are made, accepted and deemed to be according to the terms and conditions described herein. No changes to or additional terms and conditions will be valid unless agreed between the parties and confirmed in writing. Any additional services provided or goods supplied will be billed separately.

### 2. Irrevocability of orders

Orders received by Clay Paky may not be cancelled by the customer for 90 days from the date they are signed, and Clay Paky shall decide whether to accept such orders at its sole discretion. Orders are deemed to be accepted by Clay Paky only if confirmed in writing by Clay Paky or if Clay Paky has started to expedite the orders themselves.

Also in the latter case, orders shall be deemed to have been accepted according to these general terms and conditions and any special terms and conditions specified in the quotation.

### 3. Offers

Offers sent by Clay Paky are deemed to be accepted when Clay Paky receives written confirmation from the customer. Any changes made by the customer to the terms and conditions of the offer will only be valid if accepted in writing by Clay Paky pursuant to section 1326 of the Italian civil code. All offers sent by Clay Paky are deemed to be made at the prices in effect at the time they are issued. The terms and conditions specified in the offers and - more specifically - the prices, discounts, and payment and return conditions are valid until the expiry date shown on the offer itself. If no expiry date is shown, the offer is deemed to expire 30 days after the date of issue. All offers are subject to product availability.

### 4. Clay Paky products and marketed products

The products supplied are either manufactured by Clay Paky itself or manufactured by third parties and marketed by Clay Paky. Clay Paky reserves the right to make any changes it deems necessary to its products at any time without prior notice. Similarly, the specifications of products marketed by Clay Paky are subject to change at the discretion of their respective manufacturers. Therefore the illustrations and data shown on catalogues, offers and price lists are purely indicative and subject to change.

### 5. Prices and terms of payment

Prices are quoted in Euros and Ex-Works as per INCOTERMS, at Clay Paky's warehouse, excluding transport and special packaging costs. The costs of standard packaging are included. Any taxes, fees or registration costs will be fully borne by the customer.

Clay Paky may change the sale prices of its products and those it markets without prior notice, without prejudice to the customer's right to cancel any orders if the change in price is greater than 3%, except as laid down in point 2.

Except for other methods that may be agreed between Clay Paky and the single customer, payments must be made via wire transfer upon receipt of Clay Paky order confirmation, or at offer acceptance by the customer, or according to other terms eventually defined by Clay Paky. The customer must then send to the sales department of Clay Paky a copy of the bank document as proof of wire transfer. Shipment of goods to the customer depends on Clay Paky's verification that the payment amount has actually been credited on its account.

Unless otherwise agreed in writing between the parties, interest on deferred payments will be calculated at two percent above the prime rate in force at the time of delivery. Bills of exchange, cheques and drafts shall be issued and accepted "subject to collection with recourse" and therefore do not constitute payment or novation of the original obligation.

Clay Paky local area agents and representatives may not collect payments of any kind without written authorization from Clay Paky. Without such authorization, any payment made is at the customer's risk and peril.

The customer may not delay or suspend payments for any reason, even if complaints or disputes arise. No customer may take legal action against Clay Paky if it has not first paid off its debt.

### 6. Default interest

In the event of late payments, the customer must pay Clay Paky interests on arrears within the terms and to the extent stated in Legislative Decree No. 231 articles 4 and 5 dated 09/10/2002 as amended, as well as any costs, as per article 6 of the same decree, that Clay Paky may sustain to recover its credit.

### 7. Transport

The goods shall always be deemed to be delivered to Clay Paky's warehouse, even if they are sold "carriage paid". Carriage is always made on behalf of the customers and at their risk, even when they authorize Clay Paky to choose the carrier. The customers shall check the condition of the goods on arrival and, if they find any damage, even only to the packaging, they shall make an immediate written report to the carrier in which

they accept delivery while reserving the right to check any damage. Clay Paky expressly disclaims all liability for the costs and proper performance of the carriage. Although the delivery times given in written and verbal quotations, offers and orders are complied with as far as possible, they are only indicative and Clay Paky cannot be held responsible for any damage resulting from delay in delivery.

### **8. Complaints**

Customers shall report all visible defects, not ascribable to transport, to Clay Paky in writing within eight days from the date of receipt of the goods. This report shall contain all information relating to the name of the consignee, the person or company the invoice is made out to, the invoice number, a description of the product, its serial number and the defects found. In no event shall the recipient be allowed to tamper with the goods, disassemble them or alter their original condition. If this occurs, Clay Paky cannot be held responsible. Returned goods are not accepted unless previously agreed upon in writing and without charge to Clay Paky.

### **9. Warranty**

The warranty period for Clay Paky products and those marketed by Clay Paky is twelve months from the date of delivery, unless otherwise stated in writing. Clay Paky guarantees that the goods it supplies are well manufactured and of good quality. The warranty guarantees the repair or replacement (at Clay Paky discretion, for free, in the shortest time possible) of any parts that show acknowledged defects in materials, construction or workmanship during the warranty period that make them unsuitable for their intended use. The guarantee excludes any liability for direct or indirect damage of any kind and for any reason, for which Clay Paky will therefore not be required to pay compensation. The customers shall see to delivering the parts that need repair or replacement to Clay Paky's works at their own expense and risk. The repaired or replacement parts shall be delivered by Clay Paky ex-works.

The customers lose all rights to the warranty if they do not comply with the agreed conditions of payment even only once, or if the faults reported are attributable to the customers themselves, their employees or third parties, for reasons such as: incorrect installation, inexperience, imprudence, incorrect or improper use, overloading, and incorrect or faulty maintenance. The warranty is also void if the customer has made alterations or tampered with the products - either directly or by commissioning third parties to do so - including the replacement of parts and components covered by the warranty, without prior permission from Clay Paky, as well as for reasons of force majeure.

Repairs, replacements and alterations that are not covered by the warranty shall be paid for at the time of their implementation or delivery. If payment is not received, Clay Paky reserves the right to retain repaired products and parts.

The warranty excludes all parts that are subject to normal wear and tear owing to natural causes or use.

### **10. Sale and installation of products**

Resellers who directly or indirectly purchase products from Clay Paky undertake to comply with the sale prices recommended by Clay Paky shown on the price list. No product may be exported outside the country Clay Paky intended it for, unless prior written permission is obtained from Clay Paky. If customers do not comply with this, they are obliged to pay a 50% penalty on the price of the product pursuant to section 1382 of the Italian civil code, without prejudice to claims for further loss.

Clay Paky assumes no responsibility for how their products are installed. It is the customer's responsibility to choose an installer and make sure their chosen installer is a dealer or installer of proven professionalism. Clay Paky cannot be held responsible for damage of any kind arising from the use of its products.

### **11. Reservation of title**

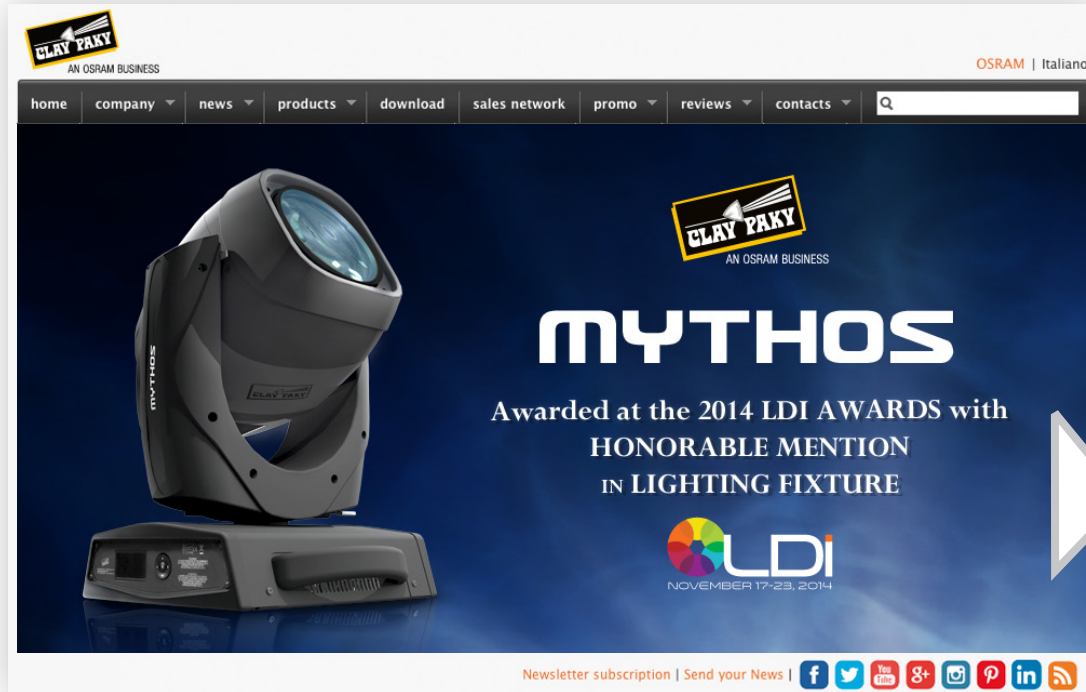

All goods supplied by Clay Paky remain exclusive property of Clay Paky until it receives full cash payment of their price. Sale is therefore made and accepted with reservation of title as laid down in section 1523 et seq. of the Italian civil code. During this period, the customers shall act as a depositary for the items supplied and assume the consequent obligations and responsibilities. They undertake to safeguard the items and protect them against any cause of damage, destruction, loss, etc.

Until the products supplied are paid for in full, they may be claimed by Clay Paky wherever they are, even if they are united with or incorporated into goods owned by the customer or by third parties, since the laws regarding appliances and accessions do not apply to them. The customer is obliged to inform Clay Paky immediately of any actions for injunctive relief brought by third parties, and any removal or relocation of the goods supplied.

In the event of non-payment of the agreed price, even only a single instalment, Clay Paky reserves the right to request termination of the contract and return of the goods sold. Partial payments already made will be kept by Clay Paky as a penalty and to compensate for use, without prejudice to claims for further loss.

### **12. Jurisdiction and venue**

Every contract of sale entered into by Clay Paky is regulated by Italian law even if the purchasing party is not of Italian nationality. Any dispute that may occur between the parties regarding the interpretation, implementation or modification of this agreement shall be referred to the jurisdiction of the Italian Court of Bergamo.
